

# General Academic Information

Stillman College confers the Bachelor of Arts and the Bachelor of Science degrees. The regular academic program is arranged into three required components—the general education curriculum, the major field curriculum, and the general electives curriculum. All three components are required in order for a student to reach the minimum 120 credit hours to be eligible for earning a bachelor's degree. The number of general elective credit hours varies depending on the student's chosen major. The courses of study are grouped into three schools divisions of instruction that include a total of ten departments.
